Advanced Skin Technology (AST), in consultation with the Therapeutic Goods Administration (TGA), is conducting an urgent recall of Aspect Sun SPF50+ Physical Sun Protection and Aspect Sun SPF50+ Tinted Physical Sun Protection. This is due to preliminary results received from an independent laboratory showing that the SPF level in these two products is unlikely to meet the labelled SPF rating. No other Aspect Sun products are affected by this Urgent Product Recall.

A low SPF rating may increase the risk of sunburn during use and reduce the long-term effectiveness of preventing skin cancer.

Advanced Skin Technology sincerely regrets any inconvenience to their customers.
